## CALL FOR PAPERS

The Wireless Personal Multimedia Communications Symposium 2009 (WPMC'09) will be held in Sendai, Japan. The WPMC Symposia series was inaugurated in 1998 at Yokosuka Research Park, Japan as a global platform which aims at enabling collaboration in the field of wireless information and multimedia communications. Held in Asia, Europe and North America, WPMC has established itself as a unique global conference dedicated to wireless multimedia convergence.

Continuing the series, the 12th International Symposium on Wireless Personal Multimedia Communications will be held for the third time in Japan. The theme of Symposium is **“Open the Door to Real Wireless Multimedia.”** In addition to high-level technical sessions, the Symposium will feature keynote presentations, special technical sessions, panel discussions and tutorials.

The scope of the Symposium includes, but not limited to, the following topics.

### Air-Interface Technologies

- Techniques for Capacity and Range Extension
- Opportunistic and Cognitive Radios
- MIMO Techniques and Smart Adaptive Antennas
- Radio Propagation

### Wireless Networks

- Convergence of Networks and Future Network Topologies
