

2009 KJJC-AP/EMC/EMT

2009 Korea-Japan AP/EMC/EMT Joint Conference (KJJC-09)
 May 14-15, 2009, RFID/USN Center at Songdo in Incheon, Korea

The 2009 Korea-Japan Joint Conference (KJJC'09) on Antennas and Propagation, Electromagnetic Compatibility, and Electromagnetic Theory will be held from May 14 to 15, 2009 at the RFID/USN Center in Incheon, Korea. This Joint Conference, the sixth, is sponsored and organized jointly by the Korean Institute of Electromagnetic Engineering & Science (KIEES) and the Technical Committees on Antennas and Propagation, Electromagnetic Compatibility of Communication Society and the Technical Committee on Electromagnetic Theory of Electronics Society of the Institute of Electronics, Information and Communication Engineers (IEICE).

The 2009 Korea-Japan Joint Conference is intended to provide an academic forum for the exchange of information on the progress of research and development in Antennas and Propagation, Electromagnetic Compatibility, and Electromagnetic Theory. The friendship and scientific exchange among Japan, Korea, and other countries will be enhanced further through this joint conference. The last joint conference held in Kanazawa, Japan on September 23-24, 2006 produced many fruitful results. KJJC'09 also expects to receive many good papers from many researchers.
