

## Call for Papers

### *Special Issue on 2004 International Symposium on Antennas and Propagation*

The Institute of Electronics, Information and Communication Engineers (IEICE) Transactions on Communications announces a forthcoming special issue on *2004 International Symposium on Antennas and Propagation* which will be published in **June, 2005**.

The 2004 International Symposium on Antennas and Propagation (ISAP'04) sponsored by the Communications Society of the IEICE will be held in Sendai, Japan, August 17 through 21, 2004, which will provide an international forum for presentations and discussions of the latest advances in the widely interdisciplinary areas of antennas, propagation and electromagnetic theory. By taking this opportunity the Special Issue on ISAP'04 has been planned to publish articles which are **limited** to the papers **presented** at oral or poster session in ISAP'04. Your participation to the ISAP'04, and the contribution to this special issue would be greatly appreciated.

#### 1. Scope

The major topics include, but are not limited to

- Wireless communication system including MIMO, UWB and so on
- Antennas and related topics
- Wave propagation and related topics
- Electromagnetic theory including computational electromagnetics
- Antenna applications including biomedical electromagnetics, sensing, EMC/EMI and so on

Detailed information of ISAP'04 is provided at the web site: <http://www.ieice.org/cs/isap/2004>.

#### 2. Submission Instructions

The deadline for submission is **September 30, 2004**. Manuscript should be prepared according to the guideline given in the "Information for Authors". The length of the paper should not exceed 8 printed pages in principle. The term for revising the manuscript after acknowledgement of conditional acceptance for this special issue could be shorter than that(60 days) for other issues because of the tight review schedule.

In this special issue, the electric submission is adopted. Prospective authors are requested to follow carefully the submission process described below.

2. Submit a revised version of the ISAP04's paper using the IEICE Web site [http://review.ieice.org /regist\\_e.wbt](http://review.ieice.org/regist_e.wbt). The acceptable format of the file is Adobe Acrobat™ (.pdf) file. Other any files and the e-mail submission are **Not** acceptable. Authors should choose the *[Special-EB] 2004 International Symposium on Antennas and Propagation* as a "Type of Issue/Category of Transactions" on the online screen. Do not choose *[Regular-EB] Communications*.
3. Two sets of the hard-copy manuscript including the figures and tables, should be sent by postal mail to the following address together with "Copyright Transfer and Page Charge Agreement" and "Confirmation Sheet of Manuscript Registration". Please mark "Special issue on ISAP'04" on the envelope. It is also requested to notify us the paper ID written in a letter of formal acceptance from the ISAP'04. Manuscripts and all inquires should be sent to:
