

Special Section : Old Tales on Electronics, Information and Communication Engineering

Editorial Preface	Kaoru ARAKAWA	697
1. Communication Technology and Information Security	Shigeo TSUJII	698
2. A History of IEICE TC-CAS Activities, Including ITC-CSCC's	Shoji SHINODA	704
3. My Life's-work with Semiconductors	Shoji TANAKA	710
4. Computer Pioneers in Japan	Akihiko YAMADA	716
5. The Daybreak of Pattern Recognition	kunio SAKAI	722
6. Rowing a Boat to the HDTV New World	Takashi FUJIO	728
7. An Opening Story of Flat Panel Displays	Fumiaki FUNADA	735
8. The Dawn of Mobile Communication Systems : From Car Phones to Handheld Phones Minoru KURAMOTO and Kota KINOSHITA		740

Technical Survey

Trends in Speech Recognition [I] : Spontaneous Speech Recognition	Sadaoki FURUI	746
Standardization and Practical Use Trends of Generalized Multi-Protocol Label Switching Technologies	Satoru OKAMOTO and Naoaki YAMANAKA	752
Laser Safety	Ken ISHIKAWA	758
Venture Capital and Investment for IT Region in Japan	Rikizo KUROSAKI and Toshifumi KANAMARU	763

Contribution

Sampling Theorem and Isao Someya	Hidemitsu OGAWA	771
----------------------------------	-----------------	-----

News Analysis

Discovery of a Novel Beam Scanning Phenomenon Wide-angle, Low-voltage Optical Beam Scanner by KTN Crystal		774
