

Special Issue : High Capacity Storage Technologies

Editorial Preface	Fumio KOYAMA	933
1. Information Storage Technologies for the Information Network Era	Yoshimasa MIURA	934
2. Digital Consumer Electronics and Storage Technologies	Mitsuro MORIYA and Kazuo KAJIMOTO	942
3. IC Card and Its Applications from the Viewpoint of Secure Storagies	Yasuhiro HOSODA and Kiyoshi NAKAHAMA	948
4. Technologies of the Storage Centric Network System	Kiyohiro NOGUCHI, Toshikazu ICHIKAWA, Mitsukazu WASHISAKA, and Takeshi MIEI	954
5. Storage Technologies for Video with Massive Amount of Information	Haruki TOKUMARU	962
6. Volatile Semiconductor Memories	Shuji IKEDA and Akihiro NITAYAMA	967
7. Non-volatile Semiconductor Memories	Hiromitsu HADA and Shinji FUJIEDA	975
8. Emerging New Memories : Phase-change RAM	Akio KITAGAWA, Kazuya NAKAYAMA, and Masashi TAKATA	982
9. Evolution of Hard Disk Drive	Hisashi TAKANO	988
10. Optical Disk Memories in Present and Future	Yoshihiro OKINO	994
11. Optical Near-field Ultra-high Density Memory by Super-Resolution Near-field Structure	Junji TOMINAGA	1000
12. Hologram Data Storage	Mitsuteru INOUE	1009

News Analysis

Infrared Communication Device for Audio Signal Transmission	1015
