

Special Section on Satellite Technology to Protect Living and Global Environments

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|-----|
| Editorial Preface | Yoshiyuki FUJINO | 725 |
| 1. Disaster Monitoring Using the ALOS “Daichi” Satellite | Hiroshi YARAI and Mamoru KOARAI | 726 |
| 2. Global Change Observation Mission (GCOM) | Norimasa ITO | 732 |
| 3. Greenhouse Gases Observing Satellite (GOSAT) Hiroshi WATANABE, Hironari ISHIHARA, Kenji HAYASHI, Fumie KAWAZOE, and Tatsuya YOKOTA | | 737 |
| 4. Global Precipitation Measurement (GPM) and Dual-frequency Precipitation Radar (DPR) Kenji NAKAMURA, Riko OKI, Toshio IGUCHI, and Arthur Y. HOU | | 743 |
| 5. Earth Cloud, Aerosol and Radiation Explorer/ Cloud Profiling Radar (EarthCARE/CPR) Toshiyoshi KIMURA and Nobuhiro TAKAHASHI | | 749 |
| 6. Solar Power Satellite/Station | Hiroshi MATSUMOTO and Kozo HASHIMOTO | 755 |

Technical Survey

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----|
| Trend on Fast Handover Technologies Shiro SAKATA, Yukiko YANO, Jun AWANO, and Takuya MURAKAMI | | 761 |
| Technology Trends and Applications of High Precision Satellite Positioning | Sumio USUI | 768 |
| Technical Trend of High-capacity Optical Transport Network Based on 100Gbit/s Channels Yutaka MIYAMOTO, Eiji YOSHIDA, and Masahito TOMIZAWA | | 775 |
| 40/100 Gigabit Ethernet Technologies | Osamu ISHIDA | 782 |
| Ontology Learning : Automatic Ontology Construction | Ryutarō ICHISE | 791 |

Contribution

| | | |
|----------------------------------|------------------|-----|
| IT and Environmental Destruction | Fumikazu YOSHIDA | 796 |
|----------------------------------|------------------|-----|

Tutorial

| | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|-----|
| When Computer Shogi will Beat Human Champion? | Hitoshi MATSUBARA | 799 |
| Electromagnetic Phenomena and Information Security : Failure of Information and Communication Equipments Caused by High Power Electromagnetic Interferences Hidenori SEKIGUCHI and Shinji SETO | | 802 |

News Analysis

| | | |
|---------------------------------------------------------------------------------------------------------|--|-----|
| High-speed and Precise Optical Switching Device : 26ps Switching Time and Over 30dB Extinction Ratio | | 805 |
|---------------------------------------------------------------------------------------------------------|--|-----|
