

## Biography (池口徹)

Tohru IKEGUCHI (Fellow, IEICE) received M.E. and Ph.D degrees from Tokyo University of Science. From 2004–2014, he was a Full Professor of Information and Computer Sciences, Saitama University. Since 2014, he has been a Full Professor of Management of Science, Tokyo University of Science, and currently, he is a Full Professor of Department of Information and Computer Technologies, Tokyo University of Science.

His research interests include nonlinear time series analysis, computational neuroscience, application of chaotic dynamics to solving combinatorial optimization problems, and the complex network theory.

In 2013, he was a chairman of Technical Committee of Nonlinear Problems, IEICE.

In 2012, he was a general co-chair of NOLTA2012 and in 2016, he was the general chair of NOLTA2016. In 2017, he was the president of NOLTA Society, IEICE.
