Abstract—This document provides the guidelines for preparing papers for 2017 International Symposium on Nonlinear Theory and its Applications (NOLTA2017). Please read carefully and follow the guidelines as closely as possible in order to produce high-quality proceedings with common formatting for all papers.

1. Introduction

Authors are kindly invited to submit papers describing original works in all aspects of nonlinear theory and its applications to NOLTA2017. Please prepare your paper according to the guidelines and submit via NOLTA2017 web site not later than **May 28, 2017**. **Only electronic submissions in PDF format will be accepted.** After review, each corresponding author will be requested to submit the **four page** final camera-ready paper in PDF format for the symposium proceedings not later than **August 28, 2017**.

2. Preparation of Papers

2.1. Paper Format

Please prepare your paper in **A4** format (210mm by 297mm). Set the top margin to 30mm with the exception of the first page with top margin of 35mm. Set the bottom margin to 30mm and the left and right margin to 20mm. Text, figures, tables and references must be contained in a 170mm by 237mm area. All text must be in a two-column format with 5mm column separation. The paper should not exceed **four pages** in length. Please do not put page numbers on your paper.

2.2. Typesetting

Text should be written with a font size of 10pt unless otherwise specified. Times New Roman font is recommended for consistency and readability both on screen and in print. **Please do not use Asian fonts**, as it make your manuscript unreadable for reviewers.

2.3. Title, Authors and Affiliations

The title of the paper appears on the first page, centered over both columns and is set in 14pt bold letters. The author

names appear below the title in 12pt. The affiliations should be given below the author names in 10pt and contain full mailing address and email address.

2.4. Abstract

The paper should start with an abstract giving a short overview on the discussed matter and the presented results.

2.5. Section Headings

2.5.1. Typesetting

Section and subsection headings should appear in 10pt bold face, while subsubsection headings in 10pt italic face. The first letter of each major word must be capitalized.

2.5.2. Alignment

All the headings should be aligned left.

2.5.3. Numbering

Section, subsection and subsubsection headings should be numbered with Arabic numerals.

2.6. Equations

Equations are centered and numbered consecutively with Arabic numerals in parentheses as follows:

$$f(x) = \frac{ax + b}{x^2 + \alpha x + \beta} \quad (1)$$

2.7. References

A list of references should appear at the end of the paper. Number all references consecutively with Arabic numerals in square brackets. When referring to them in the text, type the corresponding reference number in square brackets as [1].

2.8. L^AT_EX Style File and MS Word Template

For the convenience of L^AT_EX users, we provide a L^AT_EX style file (nolta2017.sty) that automatically formats the manuscript in accordance with the symposium requirements. A L^AT_EX sample source file (nolta2017.tex)

will show how to use the style file. We also provide a Microsoft Word template (nolta2017.doc) and a sample paper in PDF format (nolta2017.pdf). All of these files are available at NOLTA2017 web site:

<http://www.nolta2017.org>

3. Creating PDF files

3.1. Software

As mentioned above, only electronic submissions in PDF format will be accepted. There are several methods for creating PDF files: Adobe Distiller, PDFWriter, ps2pdf, dvipdfm, pdflatex, and so on. Generally Adobe Distiller provides higher quality output than others, and is therefore preferred.

3.2. Embedding Fonts

All fonts must be embedded into the PDF file of your paper including the following standard 14 fonts:

- Courier
- Courier, Italic
- Courier, Bold
- Courier, Bold Italic
- Arial MT
- Arial MT, Italic
- Arial MT, Bold
- Arial MT, Bold Italic
- Times New Roman PS MT
- Times New Roman PS MT, Italic
- Times New Roman PS MT, Bold
- Times New Roman PS MT, Bold Italic
- Symbol
- ZapfDingbats

These fonts come with Acrobat Reader, so that the file can be viewed correctly on any computer. The method of embedding fonts is different on various systems and PDF creation mechanisms; for example, in Adobe Distiller, choose Job Options and check Embed All Fonts. For authors using other software, please refer to your own help sources.

Before submission, **please make sure that all fonts are embedded into the PDF file you have created.** To view the font information for a PDF, open the file in an Acrobat Reader, go to the File menu, select Document Info, and then Fonts. The Font Info dialog box displays font information. If Used Font column is set to Embedded or Embedded Subset, it means that the font is correctly embedded.

3.3. File Protection

Please do neither password protect nor encrypt your PDF file so that we can insert headings and page numbers.

4. Submission of Papers

4.1. How to Submit

To submit your electronic manuscript, please visit the Submission page and follow the given instructions.

4.2. File Size

File size is strictly limited to 3 MB. Any file with the size bigger than 3 MB will be automatically rejected by the NOLTA2017 online submission system.

Acknowledgments

The authors would like to thank NOLTA2017 organizing committee members for their fruitful suggestions and comments.
