

Call for Papers

2013 Korea-Japan Workshop on Antennas and Propagation

9 – 11 January 2013

Gwangju Institute of Science and Technology (GIST), Gwangju, Korea

The 2013 Korea-Japan Workshop on Antennas and Propagation will be held at Gwangju Institute of Science and Technology (GIST), Gwangju, Korea, on January 9 – 11, 2013. This workshop is organized by the Technical Group on Antennas and Propagation of the Korean Institute of Electromagnetic Engineering Science (KIEES) and cosponsored by Antennas and Propagation Society of the IEEE Seoul Section and the Technical Group of Antennas and Propagation of the Institute of Electronics, Information and Communication Engineers (IEICE).

Topics

- ◆ Antennas: Theory, Design, Measurement, etc.
- ◆ Electromagnetic Field Theory & Computational Electromagnetics
- ◆ Microwave Measurement Techniques and Applications
- ◆ Remote Sensing
- ◆ RFID/USN, UWB, etc.
- ◆ Microwave Devices and Techniques
- ◆ Signal Processing & Systems (MIMO, Smart Antenna, SDR, etc.)
- ◆ Radio Communications and Broadcasting Techniques/Policy and Standardization
- ◆ Any Other Relevant Topics

Paper Submission Information

All papers for the workshop must be written in English. The paper must be A4 one page length written in MS word format. Please refer to the paper format of the KIEES conference proceedings at the KIEES home page (<http://www.kiees.or.kr>). The paper template is also available upon request: mkkim@gist.ac.kr.

• Submission Address

Korea: Prof. Kangwook Kim, Gwangju Institute of Science and Technology, Korea. mkkim@gist.ac.kr
Japan: Prof. Nozomu Ishii, Niigata University, Japan. nishii@eng.niigata-u.ac.jp

• Submission Deadline: December 8, 2012

Conference Chairs

Dr. Jin-Seob Kang, Korea Research Institute of Standards and Science, Korea
Prof. Toru Uno, Tokyo University of Agriculture and Technology, Japan

Organizing Committee Chairs

Prof. Kyeong-Sik Min, Korea Maritime University, Korea
Prof. Nobuyoshi Kikuma, Nagoya Institute of Technology, Japan

Technical Program Chairs

Prof. Kangwook Kim, Gwangju Institute of Science and Technology, Korea
Prof. Nozomu Ishii, Niigata University, Japan

Venue

The Gwangju Institute of Science and Technology (GIST) is a research-oriented university that focuses on the essential fields of applied science and engineering. The Institute was founded in 1993 by the Korean government to meet the nation's need for advanced research and to enhance the development of higher education in science and engineering. GIST takes a leading role in performing research and development in cooperation with industry sectors. In the World University Rankings 2012 announced on September 10th by QS, Britain's global university appraisal institute, GIST earned a ranking of seventh in the world in the category of 'Citations per Faculty.'

GIST is located in the Gwangju Science and Technology Park in a northern suburb of Gwangju. The city

of Gwangju is situated 200 miles south of Seoul and 150 miles west of Pusan. Gwangju is well known for its cultural activities. In 1995, the city began hosting the Gwangju Biennale, a biennial international art Olympiad, on a regular basis. Gwangju is also famous for its excellent cuisine. In the downtown area of Gwangju, one can find many restaurants, movie theaters and shops, including big department stores. The city can be easily reached by air, road and rail from Seoul, Pusan and other major cities throughout the nation.
