

---

Dear Colleague,

AMTA 2020, the 42nd Annual Meeting and Symposium of the Antenna Measurement Techniques Association, will take place from November 2-5 as a virtual symposium. Standard registration is US\$250, while student/retiree registration is US\$125; both include a 1-year membership. Registration for the full-day short course is US\$50.

The final [Technical Program is now available](#), which includes information on our featured speakers, details about our short course on *Radome Theory, Design and Measurement Techniques*, and the full line-up of technical presentations.

The [landing page for our virtual platform is available](#) and all registrants will be able to log in on November 2. Featured speaker presentations will be presented *simulive* according to the Final Program's Agenda with Q&A immediately following. All technical presentations will be available on-demand, with dedicated Q&A sessions for each of our technical sessions. The Exhibition Hall will be available all week, where attendees can interact with our Exhibitors through virtual booths.

This year, we'll also be casting electronic ballots for two 2021 Board of Directors positions. Be sure to watch candidate videos through the Virtual Symposium site and to rock the vote.

Lastly, don't forget to visit vendor booths to chat with representatives, discuss product documents, and watch vendor webinars to rocket up your position on the leaderboard to win great prizes!!

Best regards,

Jeff
