2021 International Conference on Emerging Technologies for Communications

Online/Onsite Conference, December 1-3, 2021

We go Virtual and Open-Access!!

The 2021 International Conference on Emerging Technologies for Communications (ICETC 2021) will be held as an **online virtual conference**, December 1st–3rd, 2021. (Originally at Tokyo University of Science, Japan) This is the flagship international conference covering all the technical fields by the IEICE Communications Society. The objectives of the conference are synergistic effects beyond the technical fields, expansion of research areas, and development of young researchers. This conference is a place for discussions; therefore, not only recent research results but also preliminary results at the initial stage on research are welcomed. Authors can select oral or poster presentation at paper submission. **Accepted papers will be published as open access on the IEICE Proceedings Series.** ICETC 2021 Committee will also present best paper awards, best poster presentation awards, and student presentation awards. Papers describing original results in all aspects of emerging technologies for communications are invited. Topics include, but are not limited to:

Antennas and Propagation
Internet Architecture
Space, Aeronautical and Navigational Electronics
Satellite Telecommunications
Electromagnetic Compatibility
Communication Quality
Information and Communication Management
Information Networks
Smart Radio
Short Range Wireless Communications
Sensor Network and Mobile Intelligence
Communication Systems
