The 5th International Conference on Emerging Technologies for Communications (ICETC 2024) will be held at Kitakyushu International Conference Center, Kitakyushu, Japan (in-person conference), November 25th - 27th, 2024. This is the flagship international conference covering all the technical fields by The Institute of Electronics, Information and Communication Engineers (IEICE) Communications Society. The objectives of the conference are synergistic effects beyond the technical fields, expansion of research areas and development of young researchers. This international conference is a place for discussions; therefore, not only recent research results but also preliminary results at initial stage on a research are welcomed. Authors can select oral or poster presentation at paper submission. ICETC2024 Committee will also present best paper awards, best poster awards and best student awards. Papers describing original results in all aspects of emerging technologies for communications are invited. Topics include, but are not limited to:

Antennas and Propagation
Internet Architecture
Space, Aeronautical and Navigational Electronics
Satellite Telecommunications
Electromagnetic Compatibility
Communication Quality
Information and Communication Management
Information Networks
Smart Radio
Short Range Wireless Communications
Sensor Network and Mobile Intelligence
