

# APSITT 2015

Sponsored by Communications Society, IEICE

10th Asia-Pacific Symposium on Information and Telecommunication Technologies  
Aug. 4-7, 2015, Colombo, Democratic Socialist Republic of Sri Lanka

**APSITT 2015**  
10<sup>th</sup> Asia-Pacific  
Symposium on  
Information and  
Telecommunication  
Technologies  
Colombo,  
Democratic Socialist  
Republic of Sri Lanka  
Aug 4-7, 2015

## Conference Objectives

The objective of the conference is to offer the opportunity to exchange opinions among different countries in a co-operative atmosphere in the rapid changing information and telecommunication field. We aim toward the prosperity of Asia-Pacific region by presenting the opportunities of academic forum for mutual understanding and friendship among researchers and leaders in this region.

## Schedules

Paper submission due: February 27, 2015 (EXTENDED)

Notification of acceptance: April 13, 2015

## Technical Areas

The APSITT 2015 provides a forum for researchers and professionals to present their findings on the broad areas of information and telecommunications technologies. Technical papers are sought describing original works in the following but not limited to:

- |                                    |                                    |                           |
|------------------------------------|------------------------------------|---------------------------|
| - Green ICT                        | - QoS Control and Management       | - Resilient Networks      |
| - Ubiquitous Applications/Services | - Traffic Control and Management   | - Ad-hoc Networks         |
| - Internet Applications/Services   | - Content Delivery                 | - Scale free Networks     |
| - Mobile Applications/Services     | - Switching and Routing            | - Overlay Networks        |
| - Multimedia Applications/Services | - Fundamental Theories             | - Network Security        |
| - IP Networks                      | - P2P communication                | - Network Analysis        |
| - Wireless Networks                | - Web based Applications/Services  | - Next Generation Network |
| - Photonic/Optical Networks        | - Policy and Planning              | - Post IP technologies    |
| - Network Architecture             | - Service Development Technologies |                           |
| - Network Management               | - Sustainability and Dependability |                           |

## Paper Submission

The APSITT 2015 is soliciting paper submissions in the form of full-paper submission as follows.

- Prospective authors are requested to submit a paper of three (3) pages, IEEE compatible PDF, written in English. Accepted papers will be presented at technical sessions.
- All copyright of accepted papers, including rights for publishing in any media, are transferred to the IEICE.
- Authors of best papers will be recommended to submit an extended version of their papers in IEICE transactions on communications.
- Accepted and presented papers in Regular/Selected Session will be published in the conference proceedings, and Accepted and presented papers in Selected Session will be submitted to IEEE Xplore as well as other Abstracting and Indexing (A&I) databases.
- The proceedings of accepted papers will be indexed on the IEICE knowledge Discovery (I-Scover). The proceedings will be submitted to some other major indexing services as well. The decision of indexing will be made by each indexing service provider after a review of the proceedings.

Detailed submission process using the EDAS can be found on the conference web page.
