

Technology Trials and Proof-of-Concept Activities for 5G and Beyond 2018 (TPoC5G 2018)

in conjunction with VTC2018-Spring
3rd, June, 2018, Porto, Portugal

Committee

General Co-Chairs

Hidekazu MURATA,
Kyoto University

Gerhard BAUCH,
Hamburg University
of Technology

TPC Co-Chairs

Yukitoshi SANADA,
Keio University

Shinsuke IBI,
Osaka University

Local Arrangement Chair

Yuyuan CHANG,
Tokyo Tech.

Publicity Chair

Toshihiko NISHIMURA,
Hokkaido University

Panel/Keynote Chair

Satoshi SUYAMA,
NTT DOCOMO

Advisories

Fumiyuki ADACHI,
Tohoku University

Seiichi SAMPEI,
Osaka University

Mamoru SAWAHASHI,
Tokyo City University

Satoshi DENNO,
Okayama University

Eisuke FUKUDA,
Fujitsu Lab.

Call For Papers

TPoC5G workshop will be held in Porto, Portugal, on 3 June 2018 in conjunction with the 2018 IEEE 87th Vehicular Technology Conference: VTC2018-Spring. This workshop is technically co-sponsored by IEICE (Institute of Electronics, Information and Communication Engineers) technical committees on Radio Communication Systems (RCS) in Japan.

Scope: The 5th generation (5G) cellular communication systems are to be launched in a couple of years. In the 5G standardization, key enabling technologies such as massive MIMO, beamforming, access technology and a new frame design are to be specified. Meanwhile, the research and development of those key technologies and their technology trials are being carried out in many research entities. On the other hand, new technology concepts for beyond 5G (B5G) have been also investigated. In these regards, this workshop is aiming to provide the opportunity to present the latest trials and trial results for 5G and the proof-of-concept activities for B5G. Through the discussion at the workshop, it is also expected to promote the exchange of new ideas among researchers.

Topics:

- 5G technology trials
- Validation of technology concepts for the 5G systems (e.g. Massive MIMO, Beamforming, MU-MIMO, Distributed Cells)
- Hardware implementation issues of the 5G systems in SFH bands or millimeter wave bands
- Proof-of-concept activities for the B5G systems
- Experimental investigation of new radio waveforms (e.g. Filtered OFDM, GFDM, UFMC)
- Experimental investigation of full duplex
- Etc.

Important Dates [Updated]:

Paper Submission Due: 19 January 2018

Acceptance Notification: 12 February 2018

Final Papers/Author Registration Due: 28 February 2018

Paper submission:

Submission requirements: 5-page paper ONLY

Up to 2 additional pages may be accepted with the purchase of additional page charges

Papers should follow the IEEE conference template:

http://www.ieee.org/conferences_events/conferences/publishing/templates.html

Web Site of Paper Submission:

<https://vtc2018s-rr-wks.trackchair.com/track/1653>
