CALL FOR PAPERS

The IEICE Transactions on Fundamentals of Electronics, Communications and Computer Sciences announces a forthcoming Special Section on Information Theory and Its Applications to be published in December 2020. The objective of this special section is to discuss, through papers, new theoretical developments and techniques in information theory and its applications. The Special Section solicits paper submissions on a broad range of topics related to information theory, including (but not limited to) the following areas:

- Shannon Theory
- Source Coding
- Data Compression
- Coding Theory and Techniques
- Channel Coding
- Communication Theory
- Wireless Communications
- Sequences
- Cryptography
- Information-Theoretic Security
- Information Security
- Quantum Information Theory
- Quantum Coding and Cryptography
- Network Information Theory and Coding
- Distributed Computing and Communication
- Computational Complexity Theory
- Signal Processing
- Compressed Sensing and Sparsity
- Detection and Estimation
- Stochastic Processes
- Statistical Learning
- Statistical Mechanical Informatics
- Applications of Information Theory

Any interested authors in those fields are welcome to contributing to the Special Section, including those who make a presentation at the 42nd Symposium on Information Theory and its Applications (SITA2019) held at Kirishima, Kagoshima, Japan during November 26-29, 2019.

The deadline for submission is January 20, 2020, at 23:59 (Japan Time). It is strongly recommended that the lengths of PAPERS and LETTERS for this special section are within 8 and 2 pages, respectively. If the number of pages exceeds largely, we may recommend submitting the manuscript to a Regular Section. Manuscripts should be prepared according to the guideline given in “The Information for Authors.” The latest version is available at the web site: https://www.ieice.org/eng/shiori/mokuji_ess.html

If your paper includes identical or similar material that has already appeared in international conferences, etc., you must cite it in the footnotes or references. (See “The Information for Authors.” of the web site.)

Papers will be accepted only by electronic submission. Prospective authors are requested to carefully follow the submission process described below:

Submit a manuscript (in PDF format) and editable electronic files (LaTeX/MS-Word files, figures) for PAPER and LETTER, as well as the authors’ photos and biographies for PAPER, using the IEICE Web site: https://review.ieice.org/regist/regist_baseinfo_e.aspx . Authors should choose the [Special-TA] Information Theory and Its Applications as a “Journal/Section” on the online screen. Do not choose [Regular-EA]. Authors must agree to the “Copyright Transfer and Page Charge Agreement” via electronic submission.
