

Call for Papers

----- Special Section on Wired-and-Wireless Network System Technologies in Beyond 5G Era -----

The IEICE Transactions on Communications announces that it will publish a special section entitled "Special Section on Wired-and-Wireless Network System Technologies in Beyond 5G Era" in the [April 2022 issue](#).

Studies on advanced wired-and-wireless network system technologies for beyond 5G era are in progress, and with the flexible network infrastructures supporting the creation of various application services, it is expected to solve social issues such as declining birthrate and aging population, energy depletion, and serious natural disasters. In Society 5.0, information networks are expected to contribute to economic development as well as solving such social issues by the advanced fusion of cyber and physical spaces. In order to realize such expectations, it is essential to establish wired-and-wireless network system technologies that create innovative value such as zero touch and infinite frontier, in addition to the advancement of existing technologies for larger capacity, power saving, ultra-low latency, flexibility, high efficiency, safety and reliability. Furthermore, artificial intelligence (AI)/machine learning (ML) techniques are expected to play an important role for establishing such network systems.

In order to further promote the above-mentioned researches of networks beyond 5G era, we thus call publications (scheduled to appear in the April 2022 issue) to discuss and develop wired-and-wireless network system technologies including beyond 5G/6G networks, AI/ML, 5G/local 5G, LTE/4G, network virtualization/softwarization/programmability, network slicing, cloud/edge/fog computing, cyber-physical system (CPS), Internet of Things/Everything (IoT/IoE:IoX), optical network architecture, wireless access/core network, as well as promising application fields such as utilization of data, security/privacy, cooperation in different fields, and so on.

1. Scope

This special section aims at timely dissemination of research results in these areas. Possible topics include, but are not limited to:

- Artificial Intelligence (AI)/ Machine Learning (ML)-based Techniques
- Cyber-Physical System (CPS)
- Beyond 5G/6G
- Network Function Virtualization (NFV)
- Network Softwarization
- (Multi/Mobile) Edge Computing
- Future Network Architecture
- Wireless Access/Core Network
- Routers, Middleboxes, End-host Network Stacks
- Energy-Efficient/Green Network
- Theory/Simulation/Experiments
- Internet of Things/Everything (IoT/IoE:IoX)
- 5G/Local 5G
- Network Slicing
- Network Programmability
- Fog Computing
- Network Infrastructure
- Mobile Networks and Mobility
- Cross Field Cooperation
- Measurements
- LTE/4G
- Software-Defined-Network (SDN)
- Big Data
- Cloud Networking
- Fault Tolerance
- Optical Network Architecture
- Information-Centric Network (ICN)
- Security/Privacy
- Deployment and Experience

2. Submission Instructions

The standard number of pages is 8. The article processing charge is considerably higher for extra pages. Manuscripts should be prepared according to the guideline in the "Information for Authors." The latest version is available at the web site, https://www.ieice.org/eng/shiori/mokuji_cs.html. The term for revising the manuscript after acknowledgement of conditional acceptance for this special section could be shorter than that for regular issues (60 days) because of the tight review schedule.

This special section will accept papers only by electronic submission. Submit a manuscript and electronic source files (LaTeX/Word files, figures, authors' photos and biographies) via the IEICE Web site https://review.ieice.org/regist/regist_baseinfo_e.aspx by **10th May 2021 (JST)**. Authors should choose the [Wired-and-Wireless Network System Technologies in Beyond 5G Era](#) as a "Journal/Section" on the online screen. Do not choose [Regular EB].

Contact point:

Yosuke Tanigawa

Department of Computer Science and Intelligent Systems, Osaka Prefecture University

Tel: +81-72-254-9275, E-mail: ns-ss2021-kanji@mail.ieice.org

3. Special Section Editorial Committee

Guest Editor-in-Chief: Akihiro Nakao (The Univ. of Tokyo)

Guest Editors: Masahiro Yoshida (Chuo Univ.), Yosuke Tanigawa (Osaka Prefecture Univ.)

Guest Associate Editors: Shin'ichi Arakawa (Osaka Univ.), Satoru Izumi (National Institute of Tech., Sendai Coll.), Ved Prasad Kafle (NICT), Kenji Kanai (Waseda Univ.), Shinya Kawano (NTT), Yoshihiro Nakahira (OKI), Kosuke Sanada (Mie Univ.), Daisuke Takita (Mitsubishi Electric Corp.), Kohei Watabe (Nagaoka Univ. of Tech.), Saneyasu Yamaguchi (Kogakuin Univ.)

* Authors must agree to the "Copyright Transfer and Article Processing Charge Agreement" via electronic submission.

* Upon accepted for publication, all authors, including authors of invited papers, should pay the article processing charge covering the partial cost of publication around October 2021. For detailed information, please visit https://www.ieice.org/eng/shiori/page2_cs.html#5

* If there are non-members among the authors, we recommend that the authors take this opportunity to join the IEICE. For detailed information on the IEICE Membership Application, please visit the web-page, https://www.ieice.org/eng_r/join/individual_member.html. If all authors are non-members, the article processing charge for non-members will be applied, except for invited papers.

<https://www.ieice.org/eng/join/member.html>

* The accepted papers will be published online soon on the web site of Transactions Online after the payment of article processing charges has been completed. For detailed information, please visit https://www.ieice.org/eng/shiori/page2_cs.html#8
