

Call for Papers

IEICE Transactions on Information and Systems —Special Section on Human Communication—

The IEICE Transactions on Information and Systems announces that it will publish a special section entitled “Special Section on Human Communication” in **March 2024**.

Human Communication Studies focus on the role played by Information and Communication Technologies (ICTs) in human communication processes. It is committed to improving the theory and methodology concerning the adoption, use, applications, effects, and the psychological, social, and policy implications of ICTs. Areas of research include computer-mediated communication, new media, social media, augmented and virtual reality, assistive technology, technology studies, big data, crowdsourcing, privacy, digital news, crisis, and other technologically mediated social interaction and networking at all levels of analysis (interpersonal, interpersonal, group, organizational, national, and international). The objective of this special section is to publish and overview recent progress in the interdisciplinary area of human communication. We call for papers that make an innovative and original contribution to our understanding of ICTs, with a focus on the technology itself within the context of human communication. But the topics are not limited to this domain. The related interests are highly welcomed. All submitted papers are subjected to the same review processes as those papers accepted for publication in the regular issues.

1. Scope

This special section aims at timely dissemination of research in these areas. Possible topics include, but are not limited to:

- Human communication sciences
- Human information processing
- Media experience and virtual environment
- Well-being information technology
