Call for Papers
Special Section on Discrete Mathematics and Its Applications
submitted by September 20th, 2024, published in September, 2025

The IEICE Transactions on Fundamentals of Electronics, Communications and Computer Sciences announces a forthcoming Special Section on Discrete Mathematics and Its Applications to be published in September, 2025. The objective of the special section is to review and promote recent progress in the field of discrete mathematics and its applications. Topics of interest include, but are not limited to:

- algorithms, data structures, and computational complexity
- graphs, networks, and matroids
- combinatorial optimization
- parallel and distributed algorithms
- discrete geometry, computational geometry, and computational algebra
- coding theory and mathematical foundations of cryptography
- probabilistic and number theoretic algorithms
- linear programming and mathematical programming
- computational biology and bioinformatics
- Petri nets and concurrent systems
- applications of discrete mathematics
- algorithm engineering
- quantum computation, quantum algorithm, and quantum cryptography

Submission Guidelines: Authors are requested to submit papers and electronic source files through the IEICE online submission website (https://review.ieice.org/regist/regist_baseinfo_e.aspx) by September 20th, 2024, 23:59(JST). Choose the “[Special-DM] Discrete Mathematics and Its Applications” as a “Journal/Section” on the online submission page. Do not choose “[Regular-EA] Fundamentals” or other special sections.

Inquiries:
Kazuki Yoneyama (Guest Editor)
Graduate School of Science and Engineering
Ibaraki University

Authors must agree to the "Copyright Transfer and COPYRIGHT TRANSFER, ARTICLE PROCESSING CHARGE AGREEMENT, and NOTICES FROM THE IEICE AND PRIVACY POLICY" via electronic submission. Manuscripts should be prepared according to the style guidelines for the IEICE Transactions (See https://www.ieice.org/eng/shiori/mokuji_ess.html). For the initial submission of a PAPER, the recommended number of pages excluding References is at most 8. Submissions that significantly exceed the recommended number of pages may be immediately rejected. For the case of a LETTER, the number of pages excluding References is at most 4. The term for revision after the review process might be shortened, although it is usually 60 days long. If all authors are non-members, the article processing charge for non-members will be applied. We recommend that authors unaffiliated with IEICE apply for membership. For detailed information on the IEICE Membership Application, refer to https://www.ieice.org/eng/join/individual_member.html. Upon acceptance for publication, all authors should pay the page charges covering partial cost of publication. If payment is not completed by the due date, the acceptance will be canceled.

Open Access Publishing: All papers published in or after October 2022 issue are opened to all readers in the world through J-STAGE. https://www.jstage.jst.go.jp/browse/transfun

IEICE has began a multilingual (16 languages) translation trial of IEICE Transactions Online since April 2024. Please visit https://global.ieice.org for details.

Editorial Board:
Guest Editor-in-Chief: Kazuki Yoneyama (Ibaraki Univ.)
Guest Editors: Taisuke Izumi (Osaka Univ.), Atsushi Takayasu (Univ. of Tokyo)
Guest Associate Editors: Ei Ando (Senshu Univ.), Kohei Hatano (Kyushu Univ.), Yasuaki Kobayashi (Hokkaido Univ.), Yuichi Komano (Chiba Inst. of Tech.), Dominik Köppl (Univ of Yamanashi), Shin'ichi Nakano (Gunma Univ.), Harumichi Nishimura ( Nagoya Univ.), Koji Nuida (Kyushu Univ.), Yusuke Sakai (AIST), Bagus Santoso (Univ. of Electro-Communications), Kazuhisa Seto (Hokkaido Univ.), Koutarou Suzuki (Toyohashi Univ. of Technology), Takahisa Toda (Univ. of Electro-Communications), Kunihiro Wasa (Hosei Univ.), Keita Xagawa (Technology Innovation Institute)
