

Public Notice of Open Access

We would like to inform you that the following paper, published in the IEICE Transactions, is scheduled to be converted to Open Access based on the request under our retrospective Open Access policy

<https://www.ieice.org/eng_r/transactions/open_access.html>.

If you have any objections to making the following papers Open Access, please contact the IEICE Transactions Section by the deadline indicated below.

If no objections are received by the deadline, the papers will be made available as an Open Access publication.

1.

Title: A Method for Generating Color Palettes with Deep Neural Networks Considering Human Perception

Author(s): Beiyong LIU, Kaoru ARAKAWA

Journal: IEICE Transactions on Fundamentals

Volume/Issue/Year: Vol. E105-A, No. 4, 2021

URL:

https://globals.ieice.org/en_transactions/fundamentals/10.1587/transfun.2021SMP0011/ p

2.

Title: Spatial-Temporal Regularized Correlation Filter with Precise State Estimation for Visual Tracking

Author(s): Zhaoqian TANG, Kaoru ARAKAWA

Journal: IEICE Transactions on Fundamentals

Volume/Issue/Year: Vol. E105-A, No. 6, 2021

URL:

https://globals.ieice.org/en_transactions/fundamentals/10.1587/transfun.2021EAP1087/ p

Deadline for objection: May 15, 2026
