Organization:

Total members: 12

Current Rep. : Dr. Subramanian Arul kumaran, NTU

Past Rep. : Prof. Arokiawasami Alphones, NTU
Strategy of the Section

- Initiated mainly to mobilize more new members into IEICE Societies.
- Encouraged students and industry people to join as a member in the society.
- Collaborating with local Universities, Research Institutes and Industries to get its roots into more members.
- Arranging special Seminars/Talks by Japanese/International experts in Singapore to create a strong worldwide network with the help of IEICE Singapore section.
Membership Development Policy

- Membership drive at all IEICE/IEEE seminars in Singapore
- Briefing various transactions of IEICE and their topics at each seminar
- Joint workshop of industrial and academic researchers for a better networking among them
- A joint international workshop in Singapore sponsored by IEICE
Improvement of the Section

• To have more interaction in Singapore section, IEICE may jointly organize conference/symposium with the huge IEEE Singapore section. This will also motivate the IEEE members to join in IEICE, Japan.

• Another option is to sponsor a full/half day session in any of the high impact conference/symposium held in Singapore.
Activity Plan in 2024 Fiscal Year

- Invite at least two Eminent Scientists/Researchers from Japan (IOT, Energy Harvesting, Power Electronics, Materials Engineering and Telecommunication) to share their experiences/knowledge with Singapore Researchers provided IEICE increase the budget (including local travel expenses).
  
  1. Prof. Akio Wakejima, Nagoya Institute of Technology has already agreed to provide lectures in Singapore ➔ Approval is required.
  2. Dr. Keisuke Shinohara, Teledyne, USA ➔ Will IEICE allowed to invite delegates from USA to deliver a lecture in Singapore?

  • This can potentially motivate the local researchers to take part of the IEICE Singapore Section's current and future events.
  • In addition, this will be a seed to have a closer interaction between both parties and/or to initiate the collaborative research between Singapore Universities/Industries and Japan Universities/Industries.
  • Also it is planned to make the IEICE membership drive to recruit new members and give a talk on the IEICE membership benefits, as well.
Constructive Opinion / Requests / Proposal

• **Option A:** Since the borders are open now, it is possible to invite Scientists/Professors to provide lectures in Singapore Universities/Institutes/Companies.

• **Option B:** Possible online seminars can be also planned those who are not having sufficient time to travel.
