| • Dr. Supavadee Aramvit | Vice Section Chair |
| • Dr. Chuwong Pongjareonpanich | Secretary |

Policy for membership development at Bangkok Section

At present, number of member of IEICE is around 200, most of them are graduate students. The major societies are electronics and communication. To enhance the membership in the coming year, Bangkok section has set up policy as follows.

1. Organize special lectures regularly which rotate in many university.
2. Organize half-day workshop on some relevant topics for advancement of research and development in ICT.
3. Organize a summer school course in 1 weeks for graduate student in ICT, electronic, and communication.
4. Technical sponsor and co-sponsor with ASEAN universities and research university or Institutes in Japan

Collaborations with IEICE's domestic regional Sections

In the past year, IEICE Bangkok section organized many special lecture in general topic such "how to write technical journal paper. We hope that in the coming year, tight collaboration with electronic, communications, and computer societies will be strengthen.
