

## cashless smart society

professor:

Hiroyuki kameda

Student name: Saud Abdelaziz Alhammadi

Student number: G2120018

### Cryptocurrency, basic

Any clearly identifiable object of value that's is general accepted for payment of goods and services.

And for now, there is 18,000,000 was mined and the limit is 21,000,000.

2030 they will release last 21,000,000.

and the last mining will be in 2030.

In UAE society there is not problems in dealing with cashless as before.

### Disadvantages of cashless society

The biggest fear is the risk of identity theft. Since we are culturally not attuned to digital transactions, even well-educated people run the risk of falling into phishing traps. With the rising incidence of online fraud, the risk of hacking will only grow as more people hop on to the digital platform.

### Cashless society in UAE

The intention of the UAE in later years to fully depend on cashless but they clarifying on some religions background.

### Conclusion

To some up my work Cryptocurrency is the future.

an Individual should take risk and learn how to mänge them.

People should have a mindset that is ready to be develop.

Learn more to earn more.
