

GREETINGS FROM IEICE INTERNATIONAL SECTION REPRESENTATIVES

OUR 12 INTERNATIONAL SECTIONS ARE
BANGKOK, BEIJING, SHANGHAI, KOREA COMMUNICATION, KOREA ELECTRONICS,
KOREA INFORMATION, INDONESIA, SINGAPORE, EUROPE, MALAYSIA, TAIPEI, AND VIETNAM.

EUROPE SECTION Prof. Luigi FORTUNA

Greetings from University of Catania ITALY
One of the oldest Italian universities (1434)

We'll work always with the young generations to assure culture, knowledge development as an open door in the Mediterranean area but not only. My name is Luigi Fortuna, I am full Professor of Automatic Control at the University of Catania since 1994. The interest of our group is to transfer theory in real application, to make research and convert research programs in educational activities, to work with companies to transfer advanced studies in innovation. Our group is involved in the design of automatic control complex systems, network of robots, nonlinear electronic devices and bioengineering controlled equipments. Sustainable technologies and green electronics are the key points of our activities in order to increase first of all the life quality.

PROFILE

Born in Siracuse (ITALY) in 1953. He received the degree of Electrical Engineering (cum laudae) from the University of Catania in 1977. He was a researcher in Electronics up to 1987 when he became an Associate Professor of Automatic Control. In that period, he was more time visiting researcher at the JET (Joint European Torus) in Abington (UK) where he worked in the design of control apparatus of the JET machine. Since 1994, he is a Full Professor of System Theory. Since 1987 he taught 70 courses at the University of Catania regarding all the topics related to Automation, Operative Research and Bioengineering.
Representative of IEICE Europe Section since 2021.

VIETNAM SECTION Dr. Duy-Hieu BUI

Hello, I am Duy-Hieu Bui, Representative of the IEICE Vietnam Section.

The IEICE Vietnam Section has been established in 2013 as an international section of the IEICE, Japan. The Section aims to promote the academic meetings & collaborations between the scientists, the universities, the R&D companies from Vietnam and Japan as well as the worldwide in the fields of Electronics, Information Technology and Communications.

The activities of the Section members cover almost research and development areas in Information and Communication Technologies (ICT) and relevant technologies such as Computer sciences, Communications for the next generation network, Electronics Circuits and Devices.

The IEICE Vietnam Section has been established as a result of recent collaborations at both industry and academic sectors between Vietnam and Japan to meet a high demand on human resources, education and training in the rapid evolutions of the ICT in Vietnam in the last decade. It also aims at supporting several potential strategies for developing the ICT industry in Vietnam. The IEICE Vietnam Section organizes and sponsors various academic meetings and scientific activities such as the IEICE International Conferences on Integrated Circuits, Design, and Verification (ICDV).

PROFILE

Assistant Professor at Information Technology Institute (ITI), Vietnam National University (VNU), Hanoi
Representative of IEICE Vietnam Section since 2020.

TAIPEI SECTION

Dr. Huang-Tien LIN **Greetings from Taipei Section!**

As one of the IEICE international sections, we appreciate IEICE's continuously supports to the program of overseas sections, and plans for promoting the international sections. Since the most important mission of the local area representative is to act as a bridge between the Institute and the members in the local area, we fixed the strategy of Taipei Section as: to enhance co-sponsorship for academic meetings, and to promote the IEICE memberships and paper submissions.

Recently, due to the COVID-19 pandemic all over the world, many academic activities have to be canceled. Sincerely hope the situation could be well controlled soon and then we can start arranging physical meetings and related activities.

Please stay safe and healthy!

PROFILE

Chief researcher at National Time and Frequency Standard Lab.,
Chunghwa Telecom Labs.
Representative of IEICE Taipei Section since 2019.

FUTURE EVENT

2022 The 13th International Conference on 3D Systems and Applications, Taipei, Taiwan. (TBD)

ACTIVITIES

The following activities are being held by section representatives.

1. Planning and implementation of lectures, etc. twice a year (including local Japanese)
2. Dissemination and promotion of the IEICE activities at the time of lecture meeting.

MALAYSIA SECTION

Dr. A.S.M Mukter-Uz-ZAMAN

Welcome to IEICE "The Institute of Electronics, Information and Communication Engineers" Malaysia.

It is our great pleasure to introduce the establishment of the IEICE "The Institute of Electronics, Information and Communication Engineers" Malaysia Section! The IEICE Overseas Section has been evolved since it was commenced with four regional Representatives in 2003, and the number of Sections was extended to eleven Sections in 2012. Further, it was reformed to the current IEICE International Section in 2014 in order to promote autonomous regional academic activities in a multicultural society. IEICE Malaysia Section was officially established as the twelfth IEICE International Section with the authorization by the IEICE Board in February 2015. Ever since establishment, IEICE Malaysia section is actively organizing Workshop, Conferences, Sponsored Lecture Program and Overseas Student Exchange activities. An extensive member recruitment drive will be conducted throughout the month of December-2021, stay tuned.

PROFILE

Senior Lecturer at
FACULTY OF
ENGINEERING (FOE)
Multimedia University,
Malaysia.
Representative of IEICE
Malaysia Section since 2019.

HOW TO JOIN OUR INTERNATIONAL SECTION?

All IEICE members can register 1 international section regardless of residence.

(You can also choose the section which you are not currently living in)

Please login to your Member Page, and register from the left menu.
