TUTORIALS & TECHNICAL SESSIONS

TJMW2017 offers intensive tutorials and technical sessions on state-of-the-art RF, microwave, millimeter-wave and terahertz-wave theory and techniques with foresighted keynote and invited talks from Thailand, Japan and ASEAN countries. Technical sessions will take place on June 15-16. Tutorials will take place on June 14.

STUDENT DESIGN COMPETITION

All the students are welcomed to participate in the Student Design Competition, which will take place on June 14. A student or a team (up to 3 students) will bring and measure a prototype filter or divider/hybrid circuit that are designed and manufactured by the students. The best measurement performances will be awarded at the end of the competition. Detail guideline will be announced in March on the TJMW homepage.

PAPER SUBMISSION

Authors are invited to submit technical papers describing original work on RF, microwave, millimeter-wave and terahertz-wave theory and techniques. The topic includes but is not limited to:

- A. Active Devices and Circuits
Low-noise devices and circuits, high-power devices and circuits, control circuits (mixers, oscillators, switches, etc.), MMICs and HMICs (receivers, transmitters, etc.), silicon RF devices
- B. Passive Components
Filters and resonators, ferrite and surface wave components, packaging techniques, passive devices and circuits, waveguides, transmission lines
- C. Systems
Communication systems, microwave applications (ITS, SPS, etc.), microwave medical & biological applications/EMC/EMI, phased array antenna systems
- D. Fundamental theory and techniques
Scattering and propagation, electromagnetic field theory and CAD, antenna theory and designs, microwave photonics, microwave superconductivity, measurement techniques
- E. Emerging Technologies
RF MEMS, active antennas, photonic bandgap and artificial metamaterials, software defined radio, wireless LAN/Bluetooth, and wireless power transfer

Authors have two options for paper publication: Published paper (2-6 pages) or Non-published paper (1 page (any more) abstract). Published papers will go through review process by Technical Program Committee.

All papers have to be submitted in electronic PDF form. No hardcopy will be accepted. Authors are strongly encouraged to use a template file available at the website when preparing their paper. No-show papers are regarded as withdrawn and removed from the proceeding of TJMW2017.

YOUNG ENGINEERS PROGRAM

Young authors (typically 33 or less) are solicited to register their paper as a Young Engineers' Session (YES) paper upon your paper submission. The YES paper is invited to be presented both at a short presentation session and an interactive forum to obtain intensive technical feedbacks from high quality specialists in the field.

REGISTRATION

All speakers and participants are requested to register in advance from the TJMW2017 website <http://www.ieice.org/~mw/TJMW2017/>.
