Abstract A brief abstract with 100~200 words should be prepared only in the text. The highlight of your work should be described clearly.

Keyword A few keywords should be provided.

1. Introduction

This set of instructions is given in the style and format to be used by authors preparing camera-ready manuscripts for the 2012 Asia-Pacific Workshop on Fundamentals and Applications of Advanced Semiconductor Devices (AWAD2012). The manuscripts should clearly and concisely state the specific results of the work and its originality. The camera-ready manuscripts of accepted papers will be printed as received and bound in the proceedings for the Workshop. All the authors of invited papers and contributed papers are expected to carefully follow the instructions.

2. General Instructions

The submitted manuscripts must be in English, camera-ready in 2-6 pages including all figures and tables. The body of the manuscripts must prepare to fit within an area of 180mm x 245mm in A4 size white bond paper. For A4 size papers, set top and bottom margins to 28mm and 24mm, respectively, and left and right margins are to be 15mm. The first page of manuscripts should be headed by the title, author(s), affiliation(s), address(es), contact author's e-mail address. The title should be written with bold letters and use capital letters for the initial letter of each word except articles, prepositions and conjunctions. Place a blank line between the title and author name(s), and between the keyword(s) and the main text. The main text of the manuscript must be single-spaced throughout in the two columns with full justification. Set the column separation to 7.5mm. A blank line is to be placed between

the sections but no blank lines between the paragraphs in each section. The section headings should be given by bold letters.

Fonts

Font styles and sizes as specified in Table 1 are desirable.

Figures and Tables

A blank line is to be placed between the text and the figures and tables. Large figures and tables may span both columns. Photographs should have a high contrast in black and white. Figure captions should be placed just below the corresponding figures and table captions above the tables.

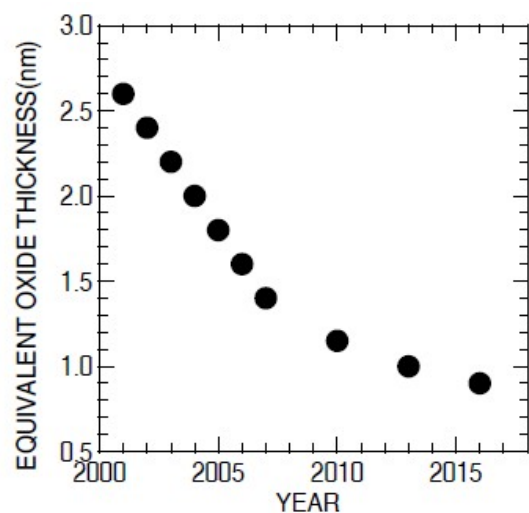

Fig. 1 Reduction of equivalent oxide thickness vs. year referred from the 2002 ITRS road map. This is an example.

References

May 25, 2012.

All the references are indicated in the main text by a number in square brackets on the line like this [1], and the full reference should be given in a numerical list at the end of the manuscript. The reference style in accordance with the one found in Trans. of IEICE is recommended. Any technical queries on the typing can be emailed to the following address;
awad2012@nuee.nagoya-u.ac.jp

3. Submitting the manuscripts

The author(s) is requested to check spelling and carefully proofread your manuscripts and change it in pdf file format. Please use standard English fonts such as Times New Roman and Arial to avoid for converting garbled characters. After checking the figure quality including character sizes in the pdf file of your original camera-ready manuscript, please submit it to the web site shown in a confirmation e-mail when you submitted a short abstract.

The deadline for receipt of the manuscripts is

Please note that no submission by Fax or Post will be accepted.

4. Conclusions

A model manuscript for the Workshop has been given.

Acknowledgements

The committee members concerned would like to express sincere thanks to all the contributors to the Workshop for their cooperation in the Workshop program.
